Previous Renewals / Surveys, etc.

Corner was originally set by Daniel Chaplin under contract No. 107 dated September 21, 1864. His record reads: Set post for corner to secs. 11, 12, 13 and 14 in mound of earth with charred stake, pits &c as per instructions. Zenas F. Moody under contract No. 164, dated October 4, 1871, stated: Set post. Currin and Noland under special contract dated May 4, 1887, stated: Set stone 7 x 8 x 9 ins. In record of survey H-255-B, set rock 12 x 7 x 5, with witness monument.

Monument and Accessories found: (condition and source)

I found the 3" brass cap witness corner from the Refuge Survey H-255-B (Monument No. 2). At the corner point I found a basalt stone 13x8x5 ins. and a 1"x53" hexagonal drill steel driven along the north side of the stone.

MONUMENT (S) AND ACCESSORIES SET (Procedures and Description)

At the position of the corner stone, I set a 1 1/2" x 30" galvanized iron pipe with a 2 1/2" brass cap stamped as shown in the diagram above. The cap is 6" below the surface of the road. I burried the stone and drill steel along the east side of the new monument.

For references, I set two, 5/8" by 24" iron rebars with 1 1/4" orange plastic caps stamped WTS and 56295LS as described below:

an iron rebar bears N37°50'25"W, 40.61 feet :

an iron rebar bears N20°31'26"E, 59.39 feet;

No. 10-63-C

a 1/2" iron rebar of unknown origin bears N64°51'33"W, 29.62 feet;

a 3" brass cap (Refuge Monument No. 2) bears S89°32'03"W 30.00 feet;

a 3" brass cap (Refuge Monument No. 3) bears N87°25'29"E 822.23 feet;

The monument and references were tied using a Trimble R7/R8 RTK GPS system.
